I Need To Attend The Recovery Expo Because?

- I will learn how to retain my company's valued employees & protect the bottom line by learning how to effectively intervene when addiction is present in a co-worker or family member.
- I need to be able to accurately assess addiction in the workplace and make the appropriate referral if necessary.
- This day offers a place where the disease of addiction can be identified confidentially; without judgment, without fear of reprisal & with support so that we may sustain & increase a well-balanced, healthy work life.
- This one day conference offers a chance to come together as a community to identify ways in which we can grow a healthier workforce.
- Addiction is a public health issue and my organization looks to me to be the expert re: resources available; i.e. treatment facilities, community support systems, legislative updates.
- I will be informed of the recent strides made in treatment & how they effect the workplace.

Thank you for your time & input.
